SITUATION SUMMARY

2017 Statewide Winter Storms

Cal OES Coastal Region

Paul's Slide, State Route 1, Monterey County

Per Cal OES Coastal Duty Officer (CDO), as of 1300 hours on 05/25/17, Paul's Slide on State Route 1 has been closed to all traffic.

- Caltrans engineers report slide activity and the area has been closed in the interest of public safety.
- Assessment will commence and further details will be provided once released.

Mud Creek Slide, State Route 1, Monterey County

The Mud Creek area on State Route 1 sustained a major slide on the evening of 05/20/17, when over a million tons of rock and dirt fell down the slope continuing down to the ocean floor 250 feet off the shoreline.

- The Mud Creek area is ½ mile in length, made up of five slides, four of which fell during this single incident and consolidated into one slide. The remaining slide now extends 1,500 feet in length over State Route 1 and is about 35 to 40 feet deep.
- Roadwork at Mud Creek was suspended and heavy equipment removed due to the threat of new slides and for safety of highway workers. Caltrans geologists and engineers plan to assess it further when this area stabilizes.
- Estimated opening date is 06/01/18.

Pfeiffer Bridge Incident, Monterey County

California Highway Patrol (CHP) and Caltrans had a hard closure on the Pfeiffer Bridge on HWY 1 at mile marker 45.52 (SB Sycamore Canyon and the Bridge) due to a crack in the bridge. The bridge has been demolished so the road is closed and estimates for some access from the north is late September 2017.

- Backup air medical transport plans have been developed for medical emergencies through Cal OES Law Enforcement Branch.
- All businesses north of the Pfeiffer Canyon Bridge closure are open to the public.
- Caltrans will continue the process of delivering construction materials and equipment to the site of the demolished bridge on HWY 1 via Nacimiento-Fergusson Road from Hwy 101 on Tuesday, 06/20/17.
- Some equipment will begin moving out one piece at a time throughout the week. These convoys of equipment will be escorted by CHP.
- Effective 07/01/17, there will be a shuttle available until the Pfeiffer Canyon Bridge reopens (estimated reopening date from CalTrans is September 2017) seven days a week, 1200-2000. North shuttle leaves every hour starting at noon. South shuttle leaves every 15 minutes from Loma Vista to Nepenthe. The last shuttle from north to south is at 1700 hours. The last shuttle from south to north is 1900 hours.
- Pfeiffer Big Sur State Park will reopen to the public on 07/01/17 after an 11-month closure due to the Soberanes Fire and winter storms.
- Julia Pfeiffer Burns State Park, Andrew Molera State Park, and Highway 1 at Pfeiffer Canyon Bridge remain closed.

SITUATION SUMMARY

2017 Statewide Winter Storms

Spring, Vegetation Fire, Mariposa County

Location: Hwy 49 x Allred Rd., South of Mariposa

Jurisdiction: State DPA, SRA, Madera-Mariposa-Merced Unit

Start time: 1346

Per Cal OES Fire Duty Officer (FDO), Cal OES Law Duty Officer (LDO) and Cal OES Inland Duty Officer (IDO) as of 2056 hours on 07/02/17::

- 225 acres grass and brush, 0% containment
- Forward spread has been stopped
- · Continued threat to structures
- Evacuation orders still in place
- · Hwy 49 closed
- Cal OES Fire Duty Officer (FDO), Cal OES Law Duty Officer (LDO) and Cal OES Inland Duty Officer (IDO) are monitoring and providing
 updates.

FMAG

• On 07/02/17 an Fire Management Assistance Grant (FMAG) application was received and placed on hold.

Deployments

1 Cal OES Region 5 Fire Assistant Chief on scene

Evacuations

- Evacuation notifications and advisories being made via Nixle and Mariposa County deputies are going door to door Mandatory:
 - Hwy 49 at Ching Rd., Verraine Rd past Ashworth., Evac on Allred Rd., Ashworth to Grist Rd. Advisory:
 - Hwy 49 to Silva Rd., also down to Indian Peak

FIRE ACTIVITY

Road Closures

· Hwy 49 from Verraine Rd past Ashworth

Evacuation Shelter

- Woodland Elementary @ 3394 Woodland Drive, Mariposa.
- Per the Cal OES IDO at 1825 hours on 07/02/17:
 - The Red Cross will transition the evacuation center into a shelter at 1900 hours.
 - There have been clients at the evacuation center but there is no accurate population count yet.

Remote/Community Isolations:

29 Palms USMC, Riverside County, Initial / Update 1

On 07/03/17 at 0237 hours, CA 911 Emergency Communications Branch advised the California State Warning Center (CSWC) of an community isolation outage affecting landline 911 access.

- Approximately 1,294 telephone land lines are affected. The 29 Palms Marine Corp Air Ground Combat Center (USMC) is the serving PSAP, has been notified.
- Per Frontier Communications, technicians have been dispatched and are enroute.
- As of 0506 hours, Frontier technicians advises that the central remote office has air conditioning (HVAC) failure which may be the probable cause for the outage. Frontier is attempting to cool the facility down at this time.
- · Phone service is down at the PSAP as well.
- As of 0516 hours, wireless is unaffected, however, Frontier cannot get calls through to the PSAP at this time.
- Currently, further investigations are being conducted, there is still no eta for the time of the repair.
- · Updates will follow as they are received.

Los Serranos, (Chino Hills), San Bernardino County, Initial

On 07/03/17 at 0512 hours, CA 911 Emergency Communications Branch advised the California State Warning Center (CSWC) of an outage affecting landline 911 access.

- Approximately1,140 telephone land lines are affected. Wireless is not affected at this time.
- · San Bernardino County Sheriffs Officer (PSAP) has been notified.
- Technicians are on site at the central remote office diagnosing the problem.
- · Currently, there is still no eta for the time of the repair.
- · Updates will follow as they are received

WEATHER OF CONCERN

Weather of Concern

• High pressure will produce above average temperatures and dry conditions over portions of Northern and Central California.

Active Weather Warnings, Watches and Advisories by County:

- http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php Temporarily unavailable.
- https://alerts-v2.weather.gov/counties/CA

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

High pressure will be over the region today. Inland areas will see afternoon temperatures 5-8 degrees above normal and humidity drop to 12-25%. Afternoon SW-NW winds will gust to 20-25 mph along the coast, through the delta, and east of the Cascade-Sierra crest. Other than a few afternoon cumulus over the higher peaks and low stratus and fog in coastal areas skies will be clear.

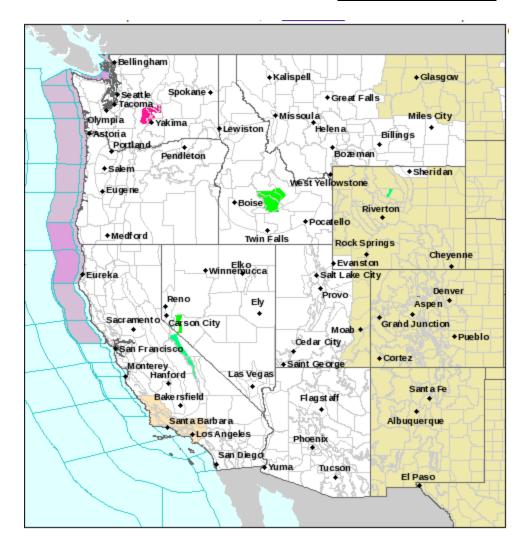

Tomorrow S-SW flow pattern will set up and continue into next weekend as high pressure strengthens over the 4-Corners area and a Pacific low pressure trough sits offshore. Gusty afternoon SW-NW winds will continue in coastal areas and through the delta, and afternoon SW winds east of the crest will gust to 25-35 mph. Temperatures will be 3-5 degrees above normal through Thursday then increase a bit into the weekend. Afternoon cumulus buildups can be expected over the peaks each day, and there is a slight chance of afternoon and evening mountain showers and thunderstorms Wednesday and Thursday.

SOUTHERN CALIFORNIA

Isolated to scattered afternoon thunderstorms Wednesday through next weekend. Strong high pressure currently over Northern Mexico will shift northward to the Four Corners Area tomorrow and then it will expand westward into California by the end of this week bringing a slow warming trend to the area. Maximum temperatures will remain in the upper 70s and 80s across the mountains and upper 80s and 90s in the inland valleys today. The warmest day will be Friday when most valley locations will be well over 100 degrees. Minimum humidity will remain mainly between 15% and 30% above and inland from the marine layer today, except there will continue to be widespread single digit humidity across the deserts. The marine layer remains around 2,000 feet deep this morning but will shrink as the ridge approaches the area. Minimum humidity will drop into the single digits and teens away from the coastal areas today and tomorrow and then there will be a gradual increase in humidity Wednesday through the end of this week as monsoonal moisture starts to come out of the southeast and south. This monsoonal moisture will bring isolated afternoon showers and thunderstorms to the Sierra as well as the mountains and deserts of Southern California east of the I-5 corridor Wednesday through Friday. The high pressure will move off to the northeast causing shower and thunderstorm activity to increase in both number and areal coverage next weekend. Temperatures will cool and humidity will be fairly high next weekend. South to west afternoon and evening winds of 15 to 25 mph with gusts to 40 mph will continue to surface across the wind prone mountain and desert areas through tomorrow.

Cal OES RECOVERY

2017 Statewide Winter Storms

Presidential Major Disaster Declarations for January/February Winter Storms – FEMA-4301-DR-CA, FEMA-4305-DR-CA, & FEMA-4308-DR-CA

 Assistance for emergency work and the repair or replacement of disaster-damaged facilities was approved for the following counties in at least one of the major disaster declaration: Alameda, Alpine, Amador, Butte, Calaveras, Contra Costa, El Dorado, Humboldt, Inyo, Kern, Lake, Lassen, Los Angeles, Marin, Mendocino, Merced, Mono, Monterey, Napa, Nevada, Orange, Placer, Plumas, Riverside, Sacramento, San Benito, San Diego, San Luis Obispo, San Mateo, Santa Barbara, Santa Clara, Santa Cruz, Shasta, Sierra, Siskiyou, Solano, Sonoma, Sutter, Tehama, Trinity, Tuolumne, Yolo, and Yuba and the Tule River Tribe in Tulare County.

EMAC and Public Assistance - 2017 Winter Storms

- Cal OES Recovery Division identified the need for Public Assistance subject matter experts to assist with the aftermath of the 2017 Severe Winter Storms. Accordingly, Cal OES requested assistance from other states through the Emergency Management Assistance Compact (EMAC) the Nation's mutual-aid system. New Jersey and Colorado provided personnel that arrived on Monday, 06/13/17. Both states along with other potential states will be providing support between now and the beginning of September at various Joint Field Offices throughout California. The goal is to assist those impacted counties in identifying disaster related damage and program eligibility.
- See Cal OES Mission Tasking slide for Mission Tasking information

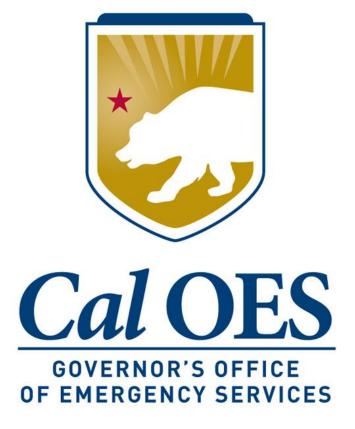

Cal OES MISSION TASKING

Cal OES Missions

- **2017-SOC-36209:** Two Public Assistance Coordinators from the state of New Jersey have been assigned to California through the Emergency Management Assistance Compact (EMAC) system
- 2017-SOC-36293: Three Public Assistance Coordinators from the state of Colorado have been assigned to California through the EMAC system.
- **2017-Cal OES-35819:** Twelve Caltrans engineers requested to conduct damage and site inspections throughout the state for impacts related to 2017 February Winter Storms. The lead engineer will report to the Joint Field Office to coordinate the response.

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
